1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-10 and 13-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Jaatinen.

Jaatinen discloses a loading apparatus including first conveyor 2, 5, a second conveyor comprising the vertically movable lifting table supporting pallet 14, pusher mechanism 7 and extension fork assembly 8, 10, 11, 12, 13.

3. Claims 11 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Applicants' arguments filed November 3, 2003 have been fully considered but they are not persuasive.

Applicants state that Jaatinen does not disclose the claimed drive mechanism operable to move the forks between retracted and extended positions. However, note strip carriage 11 of Jaatinen which corresponds to the "means for conveying said spacer strips...from said first position on the intermediate table to a second position on the lifting table of the stacking station" recited in claim 1 of Jaatinen.

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
